Notes: The Resident Population is the number of persons with a usual residence in a given geographic area as of April 1.

The revised count for 2000 was used as the base for the postcensal estimates for 2009 that were released in June, 2010. It reflects official corrections that were made through the Count Question Resolution Program as well as boundary changes and unofficial corrections based on review by the Census Bureau.

The resident population for 2010 is the initial published count from the 2010 Census that was released in March, 2010.
